- Team size : 4
- Technologies used : Angular 8, Angular JS , Restful API, Nodejs, OpenSTF, Android ADB, Appium

## TEST MANAGEMENT

MAY 2019 - JULY 2019

## ZERO

MAY 2017 - JUNE 2017

## F-MOVIE

APRIL 2017 - MAY 2017

## CERTIFICATIONS

August 2020

Javascript animation for websites, storytelling, data visualization and games - Coursera

August 2020

Create Docker Container with Flask Seaborn Regression Plot App - Coursera

August 2020

Analyze Website Visitors with Google Analytics Segments - Coursera

August 2020

Build a Google Firebase Web Application - Coursera

August 2020

Docker: Build Your Own Portfolio Site - Coursera

July 2020

Google Cloud Platform Fundamentals: Core Infrastructure - Coursera

July 2020

AWS Fundamentals Specialization - Coursera

July 2020

AWS Fundamentals: Building Serverless Applications - Coursera

July 2020

AWS Fundamentals: Migrating to the Cloud - Coursera

July 2020

AWS Fundamentals: Addressing Security Risk - Coursera

July 2020

Visual Elements of User Interface Design - Coursera

July 2020

RESTful API with HTTP and JavaScript - Coursera

July 2020

Python for Everybody Specialization - Coursera

July 2020

Retrieving, Processing, and Visualizing Data with Python - Coursera

July 2020

Using Python to Access Web Data - Coursera

July 2020

Using Databases with Python - Coursera

## FRONT-END WEB DEVELOPER

- Customer : Tester

- Description : Web application supports testers to perform test operations to create test cases, test design, test report, run test-case,etc.

- My responsibilities : Analysis and design UI, Development, Optimize code, Bug Fixing

- Team size : 8

- Technologies used : Angular, Restful API

## DEVELOPER

- Customer : Youtuber

- Description : The desktop application helps youtuber to analyze youtube search keywords, download youtube videos, render videos, upload videos, ... From there you can do the work automatically with many youtube accounts.

- My responsibilities : Analysis and design, Development, Optimize code, Testing, Bug Fixing, Sell

- Team size : 1

- Technologies used : Youtube-dl, ffmpeg, Java Swing, Youtube API

## DEVELOPER

- Description : Online movie website for students

- My responsibilities : Analysis and design, Development, Bug Fixing

- Team size : 3

- Technologies used : Bootstrap 3, JQuery, My SQL
