Apply to: Front-end developer position

Dear Mr.Dũng,

I am pleased to find your job description for Front-end developer position on Linkedin. I feel that it is direct match with my qualifications and experience.

I have got Software Engineering degree with one year of experience in Front-end development. In my recent position as a Front-end developer for FPT Software Company. I had the opportunity to participate in development on 2 projects in the first year, in each project I participated in front-end development from mock-up stage, prototype to the final interface with high accuracy.

I am a sociable person, have good communication skills and knowledge of project management, I know what I must be at each project stage, I have the ability to debate and resolve conflicts about project features, I have knowledge of both front-end and back-end so I can completely do back-end tasks when they are overloaded and finally I am single, I can work overtime or over night to ensure project progress.

Please consider the enclosed resume to know more about my professionalism, background and skills. I look forward to have an opportunity of discussing my application with you further and how I can significantly contribute to the ongoing of your reputable company.

Yours sincerely,

Nguyễn Đức Thiện
